The final QROG list produced 9 June 2024 will be used to allocate one (1) quota place for each individual shooting event. Quota places will be awarded to the highest ranked athlete from the QROG having not yet already qualified in any event and also provided the NOC of the same athlete has not already achieved more than one (1) quota place in that event.

If at a designated ISSF Championship a quota place is achieved by an athlete who has already obtained a quota place at any previous designated ISSF Championship in any individual event, the quota place must be granted to the next highest placed athlete, in that event, in a designated ISSF Championship.

The same rule applies when the NOC of an athlete has already obtained the maximum number of quota places in that event.

One (1) NOC can obtain only one (1) quota place in any of the individual events at one (1) designated ISSF Championship.

All individual events consist of a Qualification stage and a Final stage. The Final stage is the part of the competitions held in a Finals Hall/Finals range with participation of top 8 (eight) rifle/pistol athletes and 6 (six) shotgun/pistol rapid fire athletes after the Qualification stage and where the medal winners are decided. Quota places will be distributed based on the final results, but in the event all quota places have been distributed to athletes that have participated in the finals, the results from the qualification stage will be used to determine the next highest ranked athlete, not yet qualified, to award any remaining quota places.

An athlete with a quota place in one individual event may also get the right of participation in another individual event in case he/she meets the eligibility requirements described in section C. and the maximum number of athletes per NOC in this second event is respected. Such right is awarded to the individual athlete and not to the NOC.

In case the number of Mixed Teams entered in a 10m Air Rifle/10m Air Pistol Mixed Team events exceeds the available number of firing points for one (1) Qualification relay, the QROG will be used to determine the final entry list. The combined number of points according to the QROG in the respective individual events of 10m AR or 10m AP produced 9 June 2024 of both members of the Mixed Team will be taken in consideration.

If still a tie, the priority will be given to the Mixed Team with an athlete (male or female) who has the highest number of points according to the QROG produced 9 June 2024 in the individual event of the respective Mixed Team event.

The maximum number of Mixed Teams in Skeet Mixed Team event is eighteen (18).
