

II SUSTAINABILITY SUMMIT – Spanish Olympic Committee

“The Race To 2030 Agenda”

Thursday, November 18th, 2021

Spanish Olympic Committee – Arequipa, 13 - 28043 Madrid-Spain

Summary

The Spanish NOC will hold, in collaboration with the FEMP – Spanish Federation for Municipalities and Provinces- and Banco Santander, the II Sustainability Summit "**The Race to 2030 Agenda**".

This Summit will address, on one hand, how climate change affects sport and how sport itself and sporting events generate a carbon footprint, and on the other hand, what solutions and actions are proposed by the Spanish Olympic Committee to tackle Climate Change. In addition, we will present some initiatives of the Spanish Olympic Committee with its partners.

1.- Climate change and sport

Main stakeholders of the Olympic Movement will discuss about the problems that climate change is generating to sport and sporting events, and how sporting events, themselves, generate CO2 emissions and carbon footprint.

2.- COE's proposals to tackle climate change

At this round table, the Spanish NOC will present, with its main partners, the solutions and tools to reduce and offset the carbon footprint generated by Sports Entities and Sporting Events: the Spanish NOC Seal for *Sustainable Entity*; the Spanish NOC Seal for *Sustainable Sport Events*; The *Spanish Olympic Forest*.

3.- Sustainability Programs with COE Partners

This round table will present the sustainability programs that the Spanish NOC is carrying out with its partners in SDGs like gender equality, energy efficiency, sustainable mobility and educational programmes.
